Pendant lamp with textile cable and milled aluminium lamp holder - Made in Italy - Bulb included

Finish: Copper

Light bulb: Without bulb

Descrizione

A chandelier designed for lovers of **industrial style** and lighting solutions with exposed light bulbs.

This pendant lamp is ideal to give a modern touch to your rooms: the milled aluminium finishes are perfect to re-create the "factory" style with a vintage touch, while thanks to the exposed light bulb you can **illuminate even those rooms less exposed to natural light**.

We advise you to use this ceiling lamp to **light a loft where dark tones and the mix of materials are the master**, or to complete a kitchen where exposed bricks and raw materials are the protagonists.

This chandelier is ready to be installed and you can buy it already **complete with bulb**: we have chosen for you the Globo G125 transparent bulb with long filament, but alternatively you can take a look at our assortment of designer LED bulbs to find the one that best suits your style.

Each Creative-Cables lamp is designed, and assembled in Italy and is tested and CE certified by independent laboratories according to the strictest regulations in force: one more reason for choosing Creative-Cables quality.

PLEASE NOTE: Some of the images shown are examples of multiple pendant configurations that can be created by purchasing multiple suspensions. The item for sale is a lighting installation with only ONE pendant.

Scheda tecnica
